A blend of advanced technologies along with our traditional techniques learned from years of experience we invest our efforts to produce for you the amazing equipments that accompanies you in your journey to greatness.

CEO MESSAGE

Topgear Sports is a brand of hope and inspiration... Since its establishment in 1982, Topgear Sports has grown into a sensational sports brand in global market overcoming various obstacles through its challenging spirit and ability to create the best values and optimum solutions for its customers and business partners. Based on our healthy organizational culture and business experience in the global market, our purpose is that, 'through sports, we have the power to change lives', guide the way we run our company, How we work with our partners, how we create our products, and how we engage with our consumers. We will always strive to expand the limits of human possibilities, to include and unite people in sports, and to create a more sustainable world. As athletes do not settle for average. Neither do we. We have a clear mission: to be the best sports brand in the World. Every day, we come to work to create and sell the best sports products in the world, and to offer the best service and consumer experience. We will also continue to strive to lower emissions across our key operations, to shrink our product carbon footprint, to accelerate diversity and inclusion across our teams, to enable kids to have access to play and sport.

OUR GOAL IS, AND ALWAYS WILL BE TOPGEAR SPORTS FOR PEOPLE AND PURPOSE TO COME TOGETHER FOR GOOD, WE'LL NEVER STOP STRIVING FOR BETTER. OUR PURPOSE WILL ALWAYS GUIDE US, AND OUR VALUES WILL ALWAYS PUSH US FORWARD – TOWARD THAT BETTER FUTURE WE BELIEVE IN.

AIMS & OBJECTIVES

WHOM DO WE WORK WITH?

Having a vast knowledge in sports industry is a treasure we like to share it with ones who seek it. We partner up with gyms , fight clubs , online retail stores , sports shops to exclusive wholesalers and distributors around the world. We welcome businesses of all scale who are enthusiastically determined to develop , grow & deliver only the best.

HOW DO WE OPERATE?

Like any other brand we welcome wholesale distributors to operate on our behalf so they can enjoy the luxury of exclusive discounts. However in case we don't have a wholesaler yet in a specific region or country then direct shipments and orders can be delivered from our company operated facilities to your warehouse.

WHY BE PART OF OUR TEAM?

Its not just the products we sell but the quality we stand for , that makes us different from the crowd. We believe in enhancing the experience for end users of the products we produce which takes us to fighters and coaches around the world. Listening to what they want , how they like it & what they don't want. That's the secret recipe that we believe to cook our efforts in every single day. That's how we assure our clients the quality we deliver is top notch , the products we produce are uniquely designed and the promises we make are uncompromised so why not be a part of a team that aims to grow bigger than its vision itself.

BE A PART OF TOPGEAR SPORTS AND EXPERIENCE THE DIFFERENCE YOURSELF.

MATERIAL TECHNOLOGIES

OUTER COVER

◆ DURA SYNTHETIC LEATHER

Our lab engineered synthetic leather is another step towards animal cruelty free solutions for the rising industrial demand for premium leather like products.

◆ MATT DURA SYNTHETIC LEATHER

MATT Finished synthetic leather replicated the premium finish & characteristics of the original leather while ensuring the animal cruelty free alternate.

◆ PIN-TEX DURA SYNTHETIC LEATHER

Shiny surface with perforated pin textured synthetic leather helps minimize the incoming impact while also providing animal cruelty free premium leather solution.

◆ CARBON-TEX DURA SYNTHETIC LEATHER

Ever trending carbon fiber textured synthetic leather is light weight yet durable while also providing an animal cruelty free solution.

◆ TRAP-TEX DURA SYNTHETIC LEATHER

Engineered for industrial use of heavy duty resistance towards stretch and tear. This cruelty free leather is stubbornly strong and durable.

◆ ORIGINAL HIGH GRADE LEATHER

Our premium comes from the finest leather makers in the industry. Hand stretched, every skin is verified by professional leather workers before usage.

◆ MATT HIGH GRADE LEATHER

The idea of reflection of the light and shadows that creates the dull effect is placed into effect creating our MATT finished Original Leather.

MATERIAL TECHNOLOGIES

MOULDS

◆ FC 01 INJECTION MOULD

Our one piece dual component injection mould is a technologically brilliant product reinvented by TOPGEAR SPORTS engineers to assure protection against wrist injuries.

◆ 18 G INJECTION MOULD

These moulds are developed with a wider punch surface yet thick formation to absorb abnormal shock waves with ease.

◆ D4 INJECTION MOULD (SHOOTER)

Advanced boxing like mould formula specially designed for shooter and bag training gloves. Provides better shock suspension and comfort.

PADDING & LAYERINGS

◆ LATEX-PRO

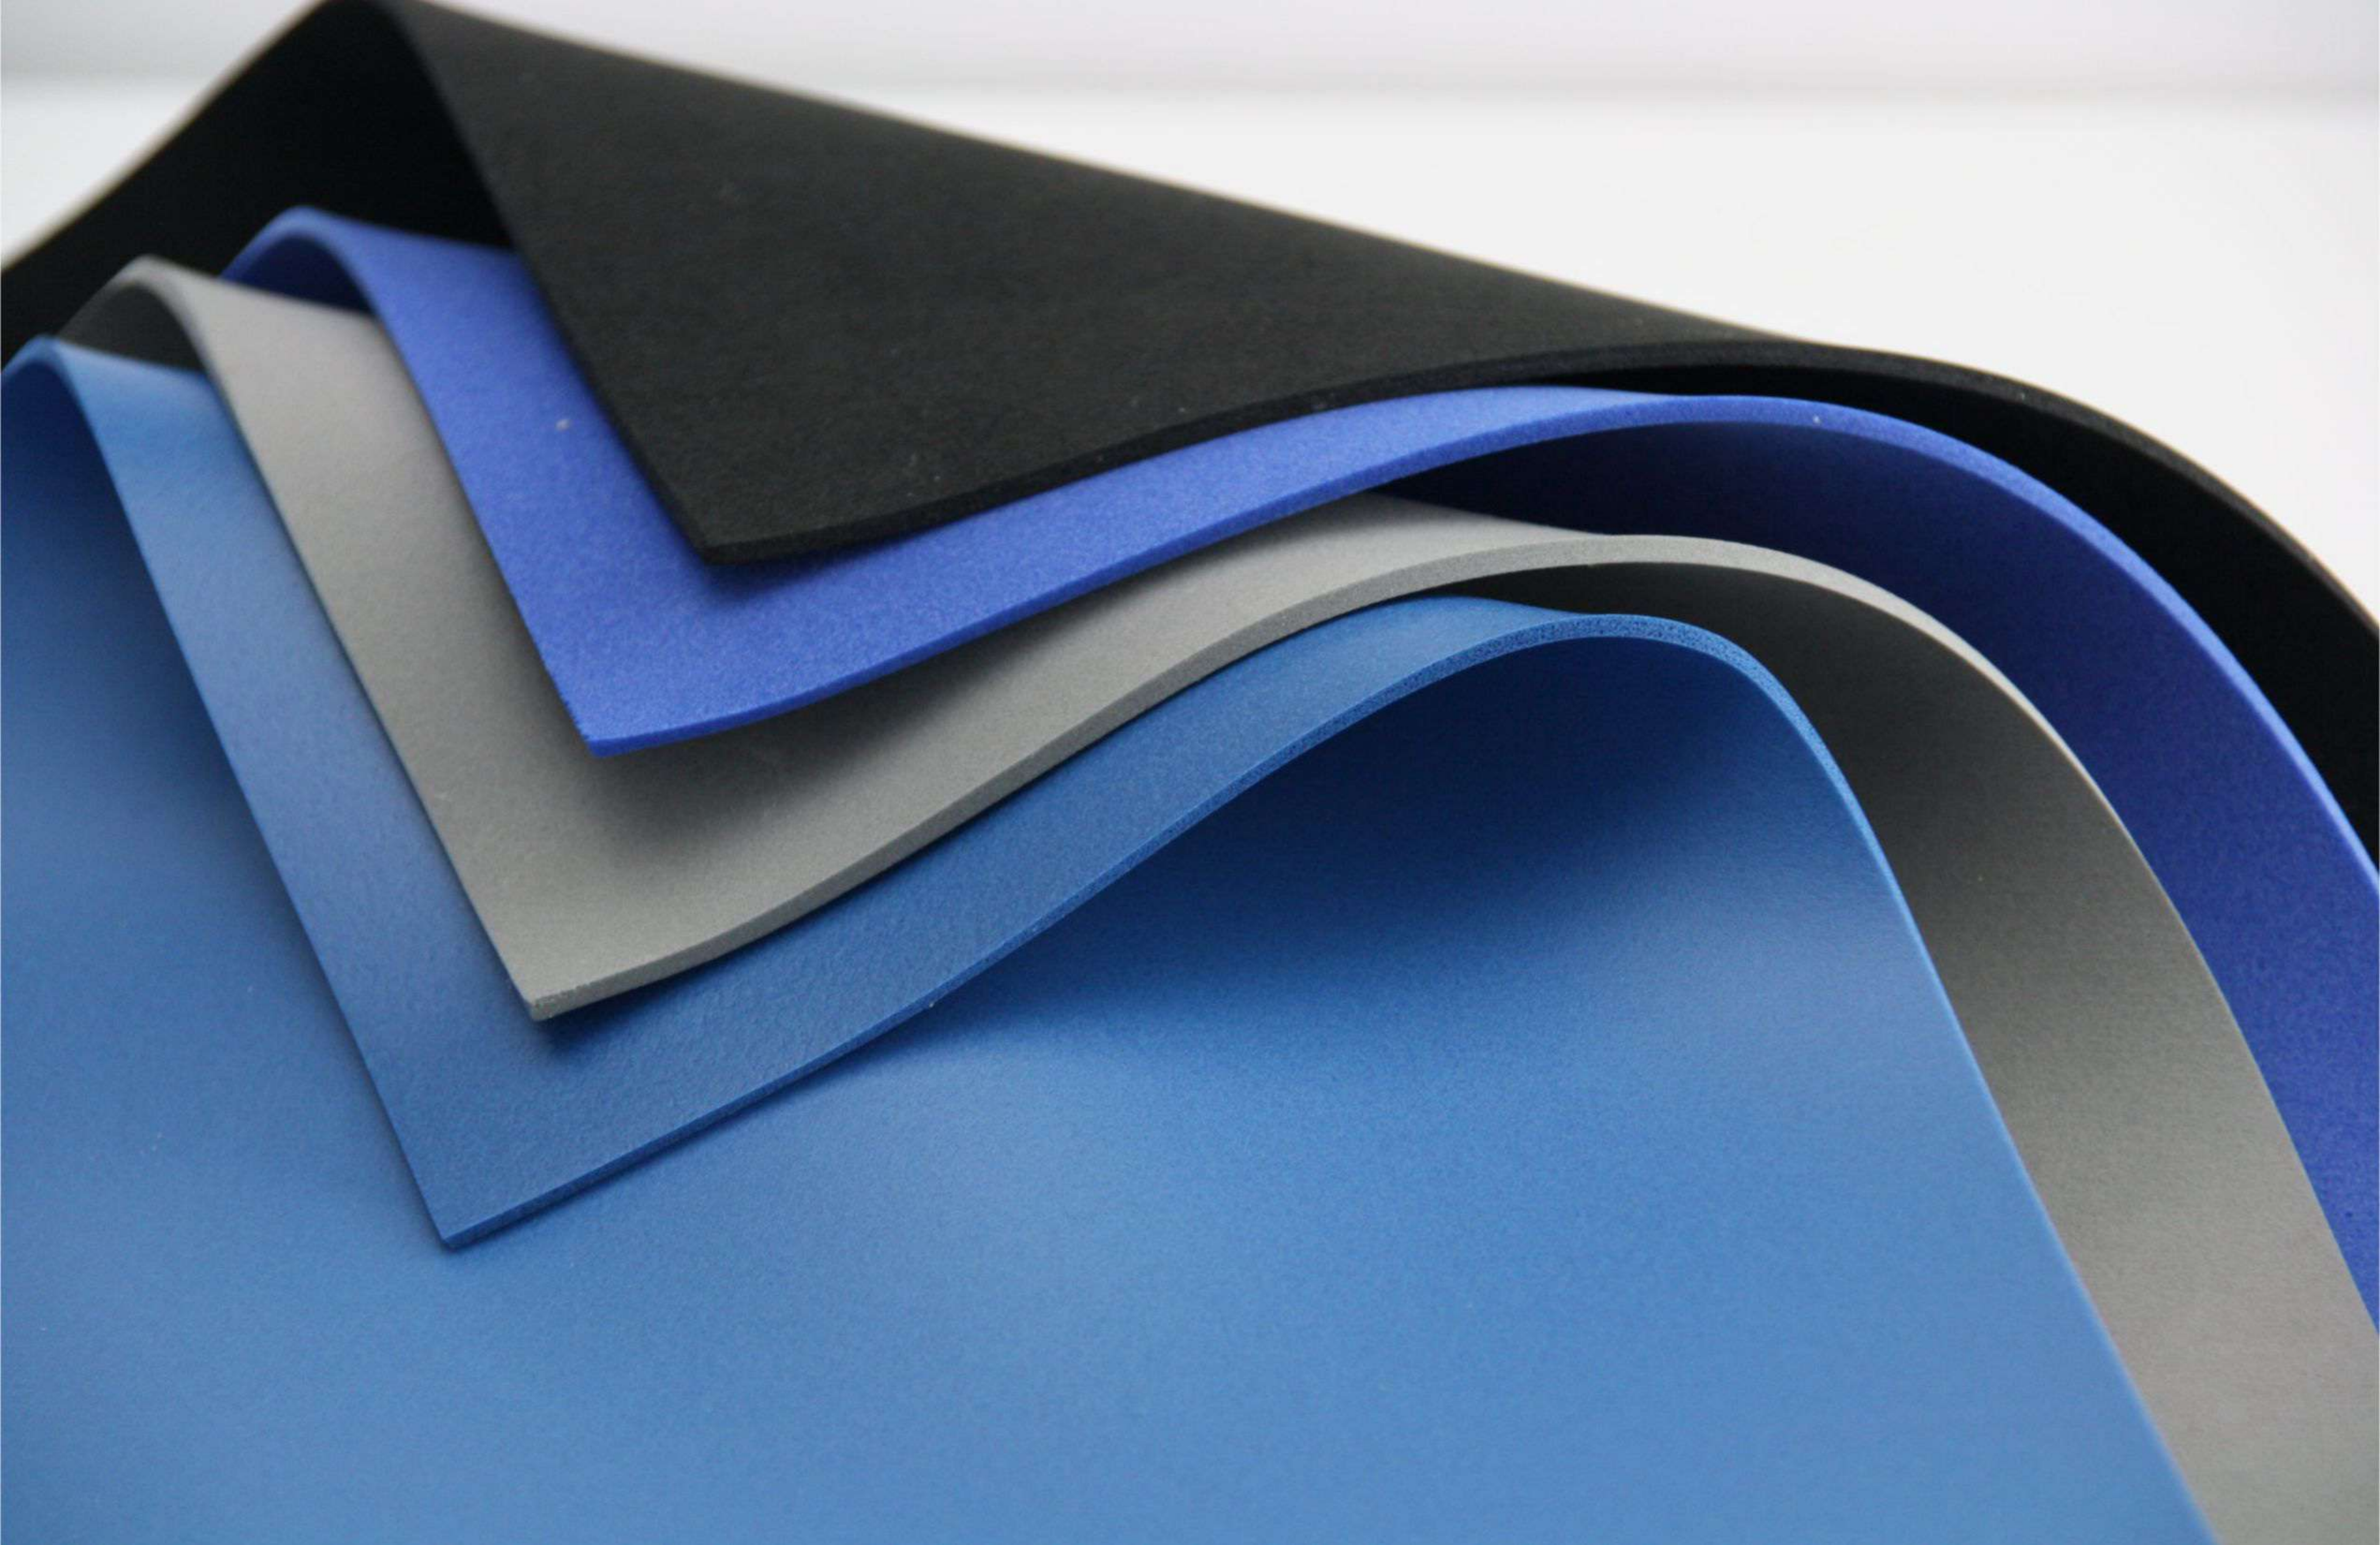

A premium latex sheet produced from our natural Malaysian latex exhibit properties that are high durability , shock suspension & extra protection.

◆ LATEX-R1

Our lab engineered latex that has qualities of natural latex yet altered with polyurethane to provide an economical substitute for our products.

◆ LATEX-PU

A Polyurethane dual component product of German developed economical substitute of natural latex yet replicating the same qualities to avoid compromise on performance.

MATERIAL TECHNOLOGIES

FABRICS & LINING

◆ ACTIVE AIR-MESH

The light weight fabric looks like a net and is very flexible. The fabric is designed for enhancing the essential airflow and cushioning.

◆ 3D AIR MESH

Ultra strong Taiwanese developed mesh construction that helps to enhance the essential airflow while also adding to the durability of your gear.

◆ TEF PRO FABRIC

The soft singular fabric lining constructed with minimum open pores to repel most of the moisture exposed to it.

◆ NEO-TCH LINING

Hyper stress handling NBR industrial rubber sheet infused in a double laminated POLY-COTTON fabric maximizes the performance & strength.

◆ POLY-COTTON FABRIC

Our signature inner lining which is designed to be RASH-FREE and smooth to touch while providing the enhanced ability to perform better than other fabrics.

◆ POWER-GRIP HOOK & LOOP

Our reinvented technology of 100% NYLON hook and loop material can be used in versatile manner including wrist support and easy adjustable grip for our products.

◆ AN5-TECH COTTON

A Strong 100% COTTON belt which is developed to provide a strong grip and has a very good response towards wear and tear occurrences.

MATERIAL TECHNOLOGIES

PADDING & LAYERINGS

◆ GAMA-07

A solid thick layer of compressed polymers reduces the impact of heavy blows to a stand-still that is absorbed and resolved within the constitution of the product.

◆ EVA-R15

The superior resistance sheet of rubber-like elastomeric polymer that delivers a great flexibility along with softness without adding any extra weight to the product.

◆ DS-VA

A Taiwanese technology light in weight and highly shock-absorbent , DS-VA layering is carefully designed with state of the art technology to enhance the performance.

◆ PR-X FOAM

High density foam sheet technology , enhances extra suspension and comfort for the user while also defusing the shock-waves for an extended period.

◆ HEXA-FOAM

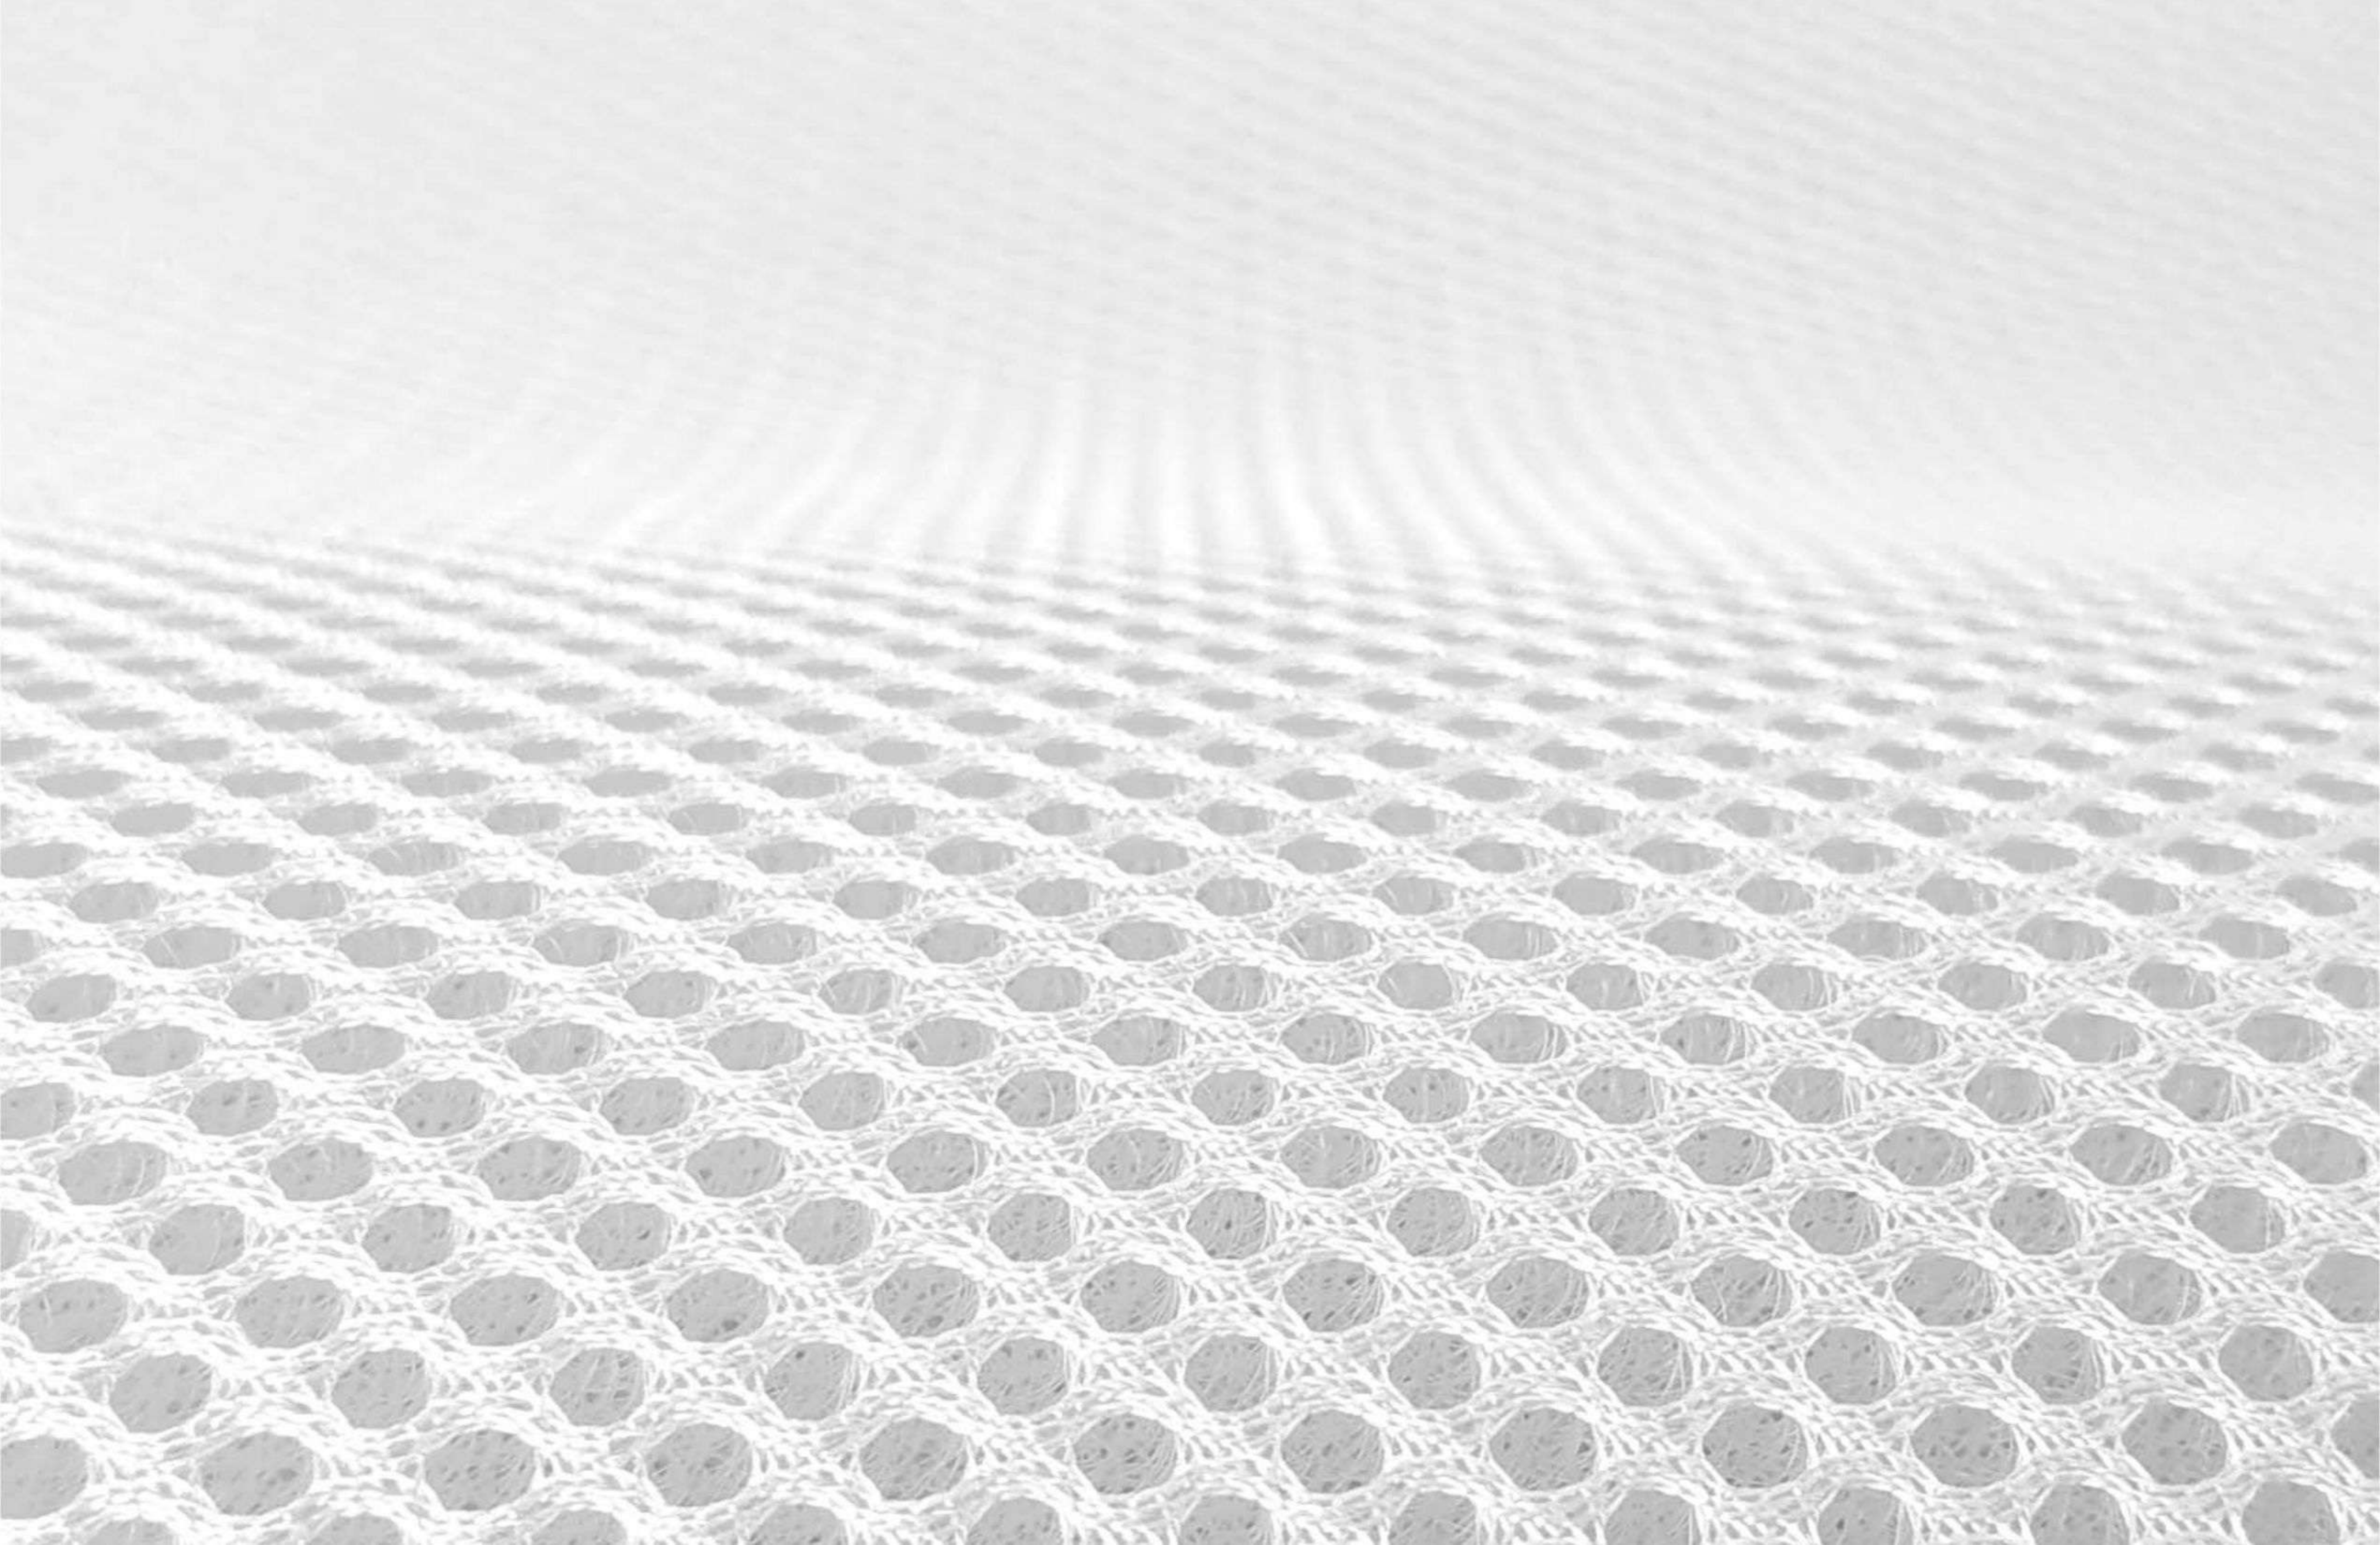

The Semi-Dense ETHYLENE VINYL ACETATE formula , this space-age sheet is one of the most versatile moldable materials used to strengthen the durability of gear.

◆ TEMPA-R1

Our unique impact-busting TEMPA-R1 greets shock-impact with a semi dense construction which enables it to regenerate to its original shape.

◆ TEMPA-PRO

The advanced TEMPA-PRO is an upgraded form of TEMPA-R1 sheet with an enhanced ability to withstand intense shock for extended durations.

SUPRA

ARTICLE # TGS BG 26 / SUPRA EDITION

Either you are a professional boxer or a beginner, you must be looking forward to taking your combat training to another level, aren't you? Don't you want your striking experience to be vigorous and sharp? Then switch on to these robust and tough SUPRA Boxing gloves. Made with high-quality PIN-TEX Dura Synthetic leather, these gloves assure durability, sturdiness and resilience against the toughest of attacks. Professionally designed with HI-TECH shock-absorbing mould that features a thumb-lock fit which upgrades your thumb protection and a protective POLY-COTTON filled palm which enables it to be used as kick boxing gloves aswell. Along with the multiple PRO-FLEX stitches on the palm these gloves feature extra ventilation holes for cool, dry and comfortable wear. Topping it all with a premium glass look embossed label patch on strap that takes the style game up high.

Combat sports often delve into the vast array of mixed martial arts, which employs unorthodox kicks, punches, and elbow strikes. Traditional pads are unable to keep up with training of such unconventional attacks and thus, we introduce the SUPRA Edition, arm-long pads. These tough straight Thai pads are made from PIN-TEX, high Dura Synthetic Leather to ensure long-lasting durability and performance. Built in a Shock Depressing, hand crafted mould, each pad is made to deliver the best performance and cushioning for punches and kicks. The arm long size of the Supra Edition pad helps to accommodate training for long-range kicks and elbow strikes, allowing fighters to train without any limitations. Featuring extra comfort with PR-X FOAM stitched with NEO-TECH LINING which adds an extra cushion for arm rest while also absorbing excessive shock. With these SUPRA Edition, arm-long pads, gain the freedom to your body more conveniently.

X-50 EDITION

X50 Edition Shin guards exhibit a superb design with TRI-CUT DS-EVA shock absorbing padding on fore front with beautifully hand trimmed all around. These shin guards take the game to whole another level. With combination of Black, White & Red Dura Synthetic Leather makes these amazing shin guards your versatile everyday training gear. The intelligently designed separate layers of DS-VA sheet with white trim stitched all around helps defuse the shock waves before their abnormal effect get to your shin bone . You attach the shin guard by means of dual strap lock system at the back and an elastic band under the foot. Ultra-lightweight and never compromising on speed, these sleek shin pads will shield your shin from strikes but won't weigh you down.

Our professional SUPREME Head guards are designed to provide a better visibility than other basic head guards. The special original water proof leather is used for inner lining which can resist the moisture for up to 20 hours of constant usage in one session. Outer cover is made of original full grain leather hand stretched & checked for its tensile strength and durability. These head guards are padded with LATEX-PRO sheet which enhances the suspension of the padding along with TEMPA-R1 padding with extra HEXA – FOAM padding around the ears and forehead that ensures the abnormal shock waves are not transmitted to the sensitive areas of your head preventing major injuries experienced by many athletes in their boxing career. Upper head offers the closure adjustment with leather patched loops and a POLY-COTTON string so you can adjust the fitting according to your desire.

SUPREME EDITION

When they strike the power out of their punches you need just the parallel power resistant training pads and we got just what you need . Our SUPREME Edition focus pads are made from high grade original leather. Prior to selection, the leather undergoes a strict quality assurance process to verify that the quality aligns up to our standards. Featuring EVA-R15 multiple layers of shock-proof padding, each of our pads is crafted with the full attention to ensure the utmost perfection, so that it disperse the shock waves generated from rapid, heavy punches, quickly and efficiently. With an integrated ACTIVE AIR-MESH which enables air flow in the pads so that they can be worn for as long as the training may dictate. Comfortable LATEX-PU wrist cushion protects your wrists from any possibility of injury by reducing the strain on your wrists and supporting them in the events of receiving an exceptionally heavy punch.

ARTICLE # TGS TP 199 / SUPREME EDITION

Diving into the vast array of mixed martial arts, most combat sports often employ the full use of all four limbs. As such, it is difficult, if not impossible to use traditional pads to train kicks. Thus, we introduce the supreme line of SUPREME Edition Thai pads, designed in Germany and handcrafted from strong, high-grade premium leather LATEX-LAMINATED with POLY-COTTON fabric which undergoes a strict screening process before being selected. Built to last & deliver. The top layer of GAMA-07 defusion sheets , laminated on HEXA-FOAM to enhance the shock compression and EVA-R15 layers for shock-proof padding which protects not only the trainer but also the fighter, by reducing the likelihood of an injury from bad form. Dual-arm grip straps are also LATEX-LAMINATED for more grip. Arm cushioning enables trainers to practice a wide variety of long-range kicks for as long as they wish. Gear up with the SUPREME Edition Thai pads for equipment that can last a life time.

Alongside punches, combat sports often involve the use of kicks as well. In order to protect your extremities just as gloves are used in hand-based combat sports such as boxing, shin guards in sports such as kick boxing & martial arts prevent strain injuries or in dire cases, fractures. TOPGEAR SPORTS presents its German-designed SUPREME Edition Shin guards, engineered by experienced athletes & constructed by skilled work force. Employing multiple layers of high-density DS-VA shock-proof padding & EVA-R15 sheet that aims to protect your legs by dispersing the shock generated at the point of impact and redirect it away from your shin bone. Featuring a POLY-COTTON soft fabric lining on the back side, an easy-to-fit curved mould and reinforced leather patches stitched onto elastic band under the foot, ensures that our SUPREME Edition shin guards provide an unparalleled superior fit.

Our Fight Club Edition pads are designed by professionals. Constructed from high-grade original leather, keeping in mind the wear and tear normal focus pads have to withstand across sparring sessions and in-action. Crafted in a Shock Depressing LATEX-PU sheet & TEMP-A-R1 hand-crafted mould, each pad is built with immense focus to detail. Introducing Innovative technologies to improve ventilation as these FIGHT CLUB Edition pads use a 3D ACTIVE AIR-MESH to allow air to flow freely within the pads themselves. Furthermore, our pads use a strong , yet lightweight durable textured fabric to not only prevent sweat but also protect the pads from the detrimental effects of sweat, improving the durability of these pads. Our Fight Club Edition pads bars up the comfort and protection standard by providing a thick padding of foam patch right over your fingers.

To facilitate this goal we developed dual component high-density FC-01 injection mould which features the anti-wrist twisting protection . Thumb lock stitched patch ensures the positioning of your thumb is comfortable & secure as you train. This helps difficult punches to be delivered with perfection and also improves the shock absorption capabilities of these gloves by directly reducing the impact placed on the wrist during punches. The emphasis on protection however does not mean that durability is neglected. Dura Synthetic Leather, verified for its resilience to wear and tear has been used to enable the gloves to go an extra mile for you.

WHY SHOULD A COACH USE OUR BELLY PADS ?

1 - MORE CONFIDENCE IN RING

A chest guard is one of the protective gears which builds confidence by offering a high level of safety. It limits the pain, and the fighters will feel more confident to concentrate on their training.

2 - SIZE FRIENDLY FIT

The chest guard comes in different sizes and styles which provides a snug fit to the wearer. These are featured with easy-to-fit pattern wide body types can equip it easily.

3 - EASE OF USAGE

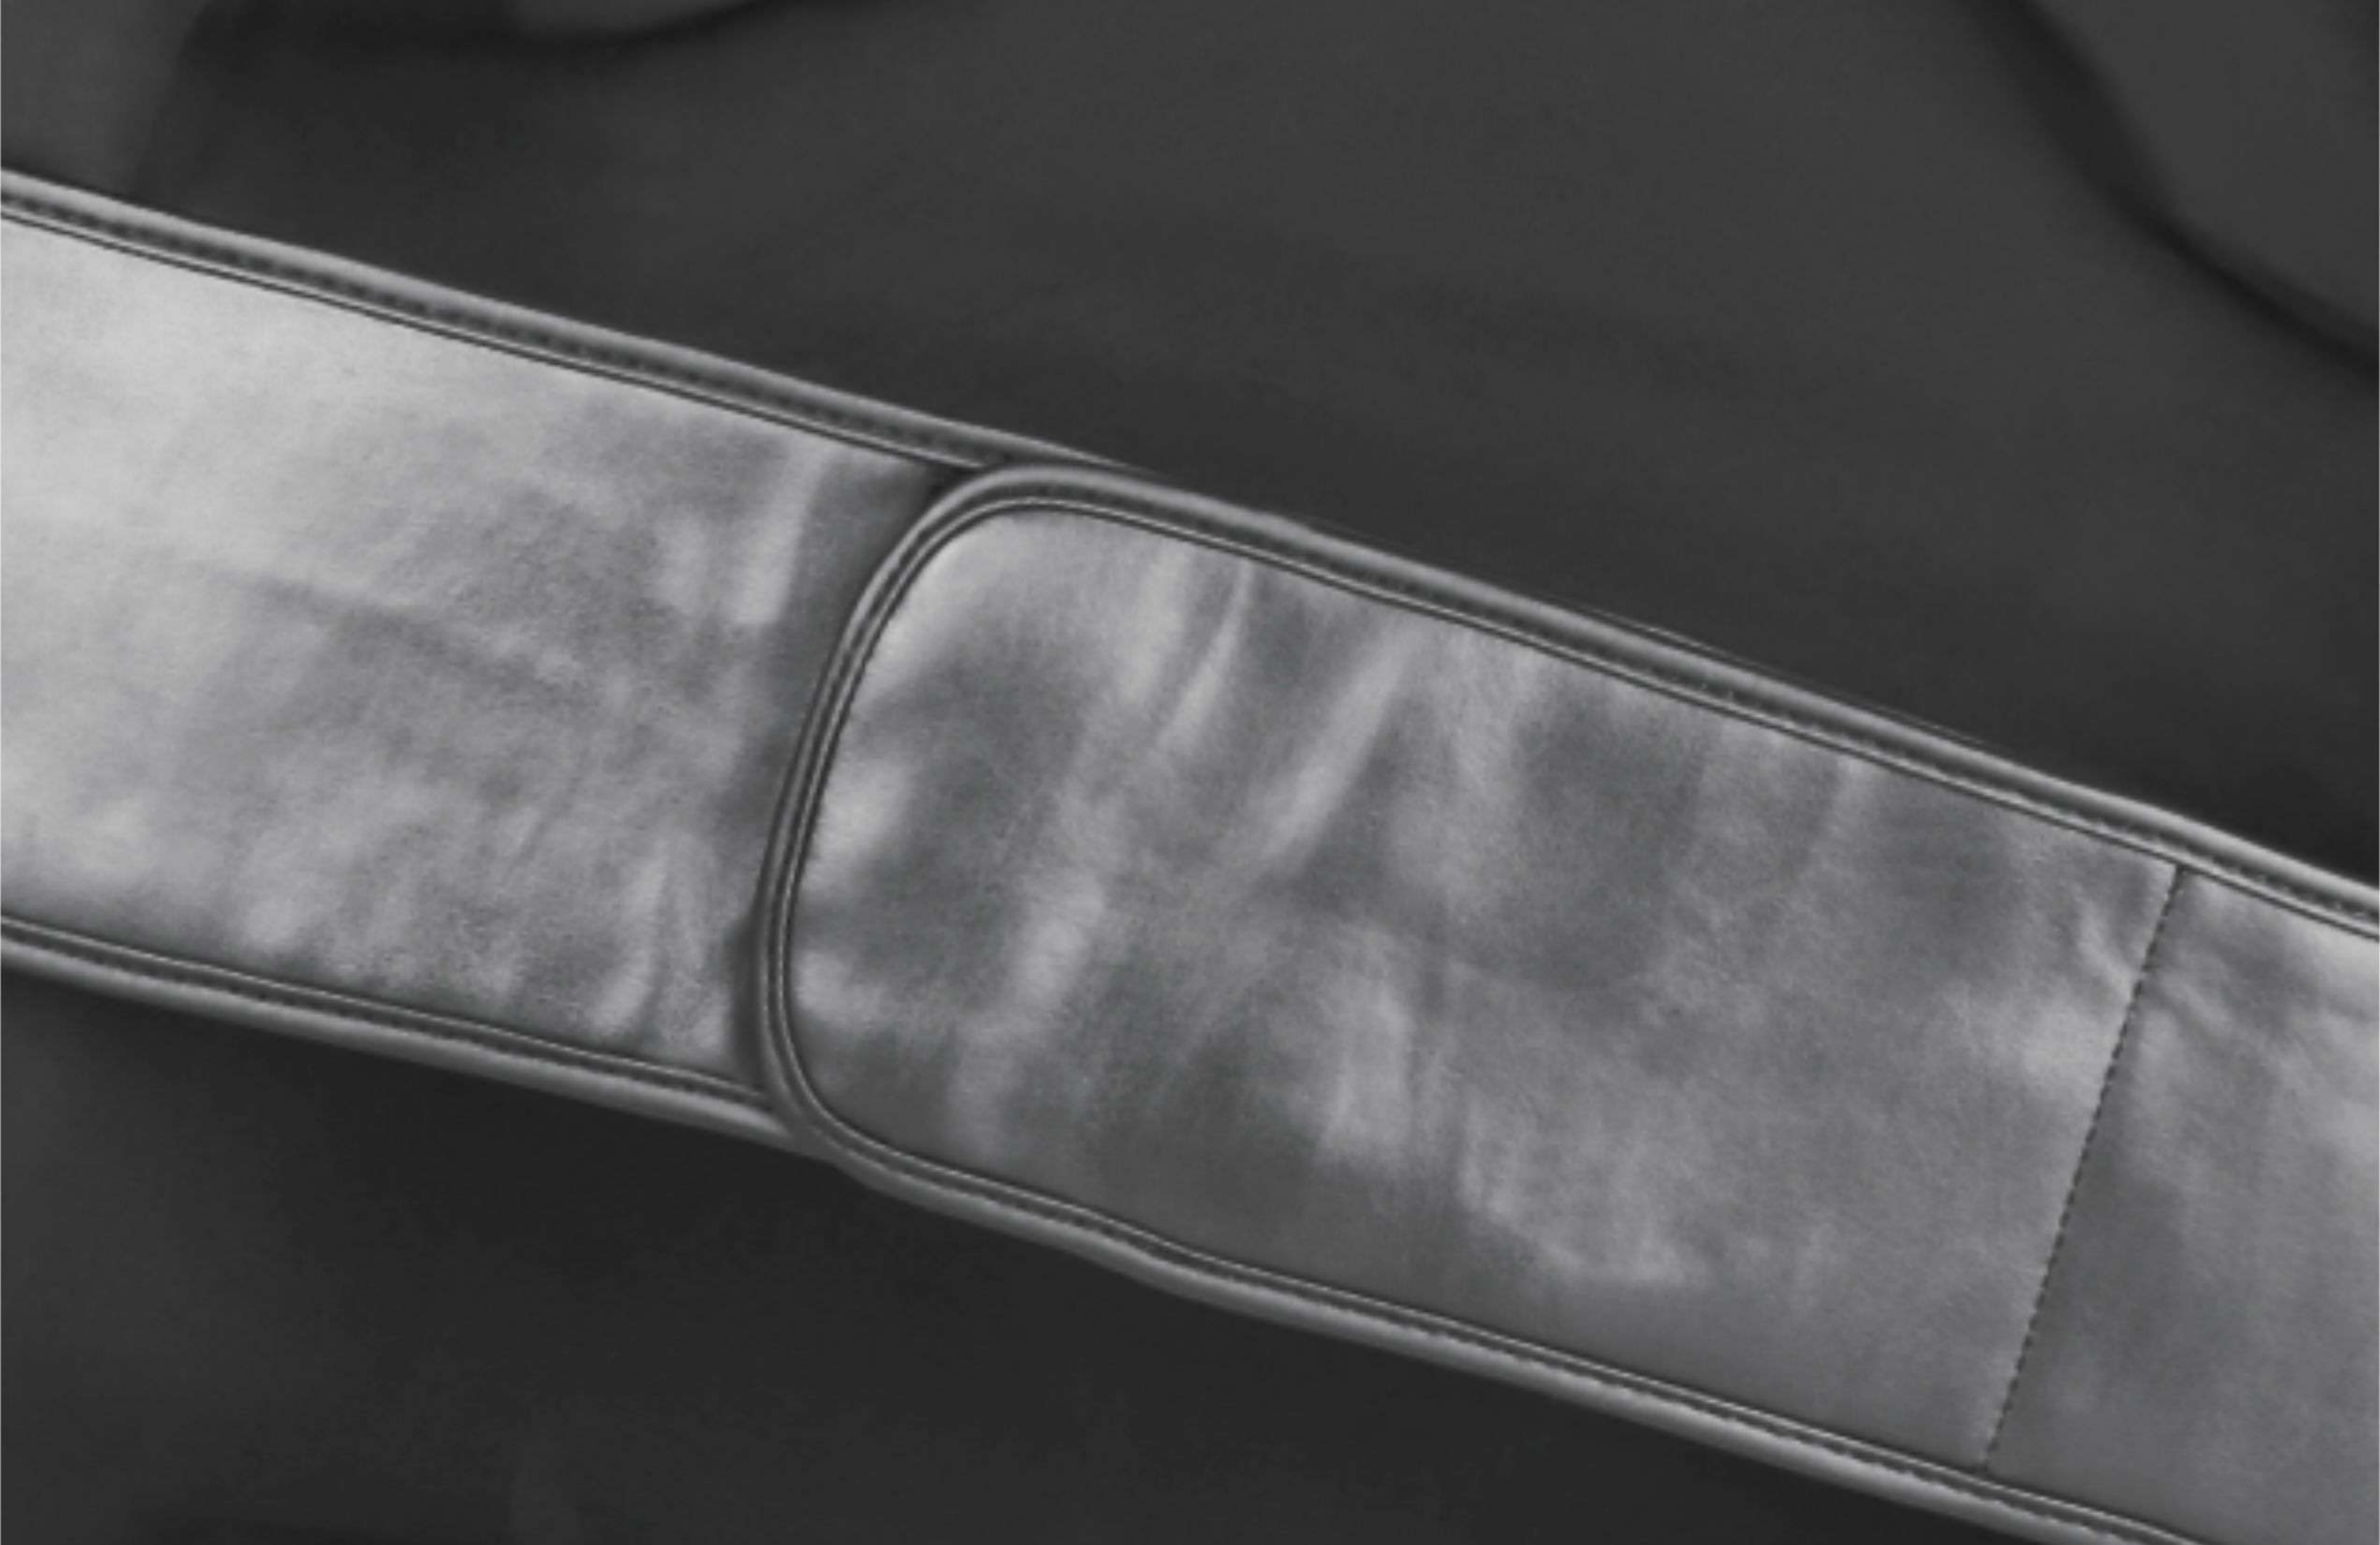

The chest guard features with easy-on and easy-off closure help you during quick training circuits. It can easily be worn on your own without taking others' assistance. Using the quick release hook and closure loop, students can take it on and off quickly.

4 - ENHANCED LIFE SPAN

The chest guard made of impact absorbing interior like foam core, double layer padded exterior of high-quality material minimizes the blow and provide added safety. The high-quality chest guards can stand up for repeated use.

5 - PROTECTION FOR EVERYONE

Chest-guard is designed separately keeping the requirements of users, be its a male or female fighter. These are also beneficial for children who are just getting started and require extra protection.

ARTICLE # TGS CG 321 / COACH EQUIPMENT

TOPGEAR SPORTS Belly Pads are light weighted and compact in design. Built from Dura Synthetic Leather to withstand unwanted wear & tear of the outer shell as a result of intense training sessions. HOUSERY

They say the better the shin pad, the braver the player. A fine set of shin pads is crucial to getting your sports potential to the max. TOPGEAR's professional shin guards match style with success bringing you protection without any unnecessary weight to carry. Designed in Germany, these shin pads are stretchable and flexible to match the contour of your legs to allow full freedom of movement. Held in place by stretchy compression sleeves, you'll never have to worry about them sliding down. It helps in ankle reinforcement too, and the durable shin guard provides a cushioned design that fits snugly onto your leg. The super low profile design of unisex shin guards allows full range of motion and is easy to slip on and take off while its breathable construct gives ample coverage to ensure you won't be picking at the stud scrapes on your shins.

ARTICLE # TGS BJJ 800 / BJJ UNIFORM

At topgear sports , we never settle for just any bjj gi, but that there is a huge number of bjj Enthusiasts like us who want a gi that has it all, including, the stylish look, right fit and Comfort, and a price that won't hurt your wallet. The one true success we have found in Making some of the best jiu jitsu gi's on the market is this: when someone steps on to the Mat to roll in an topgear sports gi, they can expect to feel ready to take on any challenge And any opponent. The uniform for brazilian jiu jitsu is referred to as a "bjj gi". Jiu jitsu Uniform is a lightweight two-piece garment that consists of loose-fitting pants and a jacket That is closed with a cloth belt. Our bjj gi is more durable than any other gi because in bjj There is constantly grabbing and pulling. Brazilian bjj gi is designed to be more form-fitting Than most because it restricts your opponent from being able to grab on to you.

An extended punch bag ceiling bracket made of shatterproof steal and measuring 10 inches long for superior stability. Constructed from the toughest 18-guage high grade steel and rigorously tested in our lab for strength and endurance, this ceiling mount is a force to be reckoned with. The steel has been treated with THERMAL-COATING, it can be used outdoors in any climate – it simply won’t surrender to weathering! Comes with heavy duty bolts and D shackle for solid strength and fixtures that stand up to extreme workouts.

This ideal TOPGEAR SPORTS swivel with snap hooks is used for attaching a boxing bag to a ceiling hook. This is the perfect accessory for your Urban Boxing Bags in different styles and types of straps. It allows strap-held boxing bags to spin freely, eliminating the stress on their straps while the snap hooks allow you to clip your bag straight to your ceiling hook or wall bracket in seconds.

Integrated design of the screw and seal, the wear-resistant seals on both sides are protected to reduce direct friction, provides high wear resistance and remain silent. The support with counter-nut can be rotated at 180 ° vertically to better support the weight. Two 0.39 inch holes are pre-drilled on the hammock support for bolting with concrete or wooden beams. Including 2 expansion bolts for concrete construction and 2 hex screws for wooden construction, as a full entire accessory, it can be assembled in minutes.
